MIRRORS, DESPATCH BOXES, AND JEWEL CASES.

THE NEW TRAVELLING TRIPLE MIRROR.

This new and very convenient form of Mirror is sure to become a general favourite. As the figure is reflected in it FIVE times, a Lady is by its aid enabled to see herself perfectly, and without changing her position at all. It is made in a variety of neat styles, and forms a pretty ornament to a room. When the Mirror is folded it is less than an inch in thickness. The small space that it occupies, and the safety with which it can be packed, will especially commend it for use in Camp.

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, 26TH APRIL 1879.

THE telegraphic advices from home this week have been of a less exciting character, and in Cotton the transactions have consequently been on a smaller scale, although receipts from up-country have been 10,000 bales, and the sailings 21,000 bales in excess of the corresponding week last year. There has been rather more doing in Seeds owing to the improvement in prices at Home, but supplies continue comparatively small, the crops of Linseed and Rapeseed being evidently very light. For imports the tone all round is quieter and there is decidedly less doing, but as a general rule prices are well supported." Money is becoming easier both here and in Calcutta, and Government Paper has improved in value slightly, but Sterling Exchange is firmer, while Joint Stock shares are dull and declining.

MONEY.—There has been no increase apparent in the trade demand for Money and in all probability we shall now get through the remainder of the season without seeing higher rates of discount. It is not at all unlikely in fact that we may see a reduction before the shipping season actually comes to an end as with the prospect of very low rates during the monsoon there will be a tendency on the part of banks and capitalists to obtain employment for their funds in anticipation. Already something of this feeling is apparent and for a fixed term accommodation could be had on good security at 6 per cent, although the Bank of Bombay minimum remains at 8 per cent. In Calcutta the Bank of Bengal reduced their minimum to the same level, from 9 per cent, on the 24th instant.

The movements in the position of the Bank of Bombay as shown by the last published statement for the week ending on 19th instant were quite insignificant, the Cash Balance showing an increase of about 4 lacs. A noticeable feature, however, was a decrease of upwards of 8 lacs in Bills Discounted marking a falling off instead of an increase in trade requirements.

EXCHANGE.—There has been a moderate business done in sterling this week, and rates after some slight fluctuations close at an advance of about ¼ per cent. on our quotations for last steamer. Business opened for the Mail on Tuesday morning on the basis of 1s. 7 9-32d. for demand Bank and 1s 7 9-16d. for 3 months' Credit bills, and on Wednesday with advices from London of Silver having advanced from 49¼d. to ½ per oz. and firmer news from Calcutta, Bank Bills became 1-32d. higher. On Thursday we had advice of the Council drafts having been allotted in London on the previous day at an average of slightly over 1s. 7 3-16d., and although this was quite as good as had been generally expected, its effect was to cause a drop of 1-16d. all round. This decline, however, was recovered on the following day, on Silver being quoted from London at 50d., and although further shipments of £180,000 were advised, making £810,000 altogether afloat from Southampton for this port, a further advance took place on Saturday of 1-16d. in Bank and 1-32d. in private paper, making the closing quotations as follows:—Bank Bills on demand 1s. 7 31/32d.; 6 months' 1s. 7 11-16d.; Credits 3 months' 1s. 7 19-32d., 6 months' 1s. 7 23-32d.; Documents 3 months' 1s. 7 21-32d., 6 months' 1s. 7 25-32d. per rupee. For future delivery there has been very little done this week, there being no sellers of private paper for later than May delivery, whilst the Banks show equally little disposition to sell forward, the farthest transactions yet reported being for June delivery. The indications are thus very distinct that the majority of people expect decidedly lower rates after the close of our export season, and there are doubtless good grounds for the expectation, so far as the trade of Bombay alone is concerned, but it must be borne in mind that the Market is even now being led by Calcutta, and will be more so in another couple of months, whilst there is always a considerable uncertainty awaiting us respecting what the action of Government may be. The future, in fact, is about as uncertain as it well could be. An idea prevails that Government may so manipulate Council drafts as to preserve an average of 1s. 7d. per rupee, but this is only an idea, and for business people the only safe course is to cover their exchange as they go on.

In Gold there has been very little doing this week for export, but business has been done at Rs. 19-10 per tola which is still the nominal quotation.

On Calcutta rates are unaltered at ¼ per cent. premium for demand and 1¼ per cent. discount for 60 day's sight.

On China the quotation remains quite nominal at Rs. 216 per 100 dollars. From Hongkong the latest quotation for 6 months' sight Bank Bills on London is 3s. 8d. per dollar and from Shanghai 5s. per tael.

GOVERNMENT SECURITIES.—From no apparent reason unless it be the slightly easier appearance of the Money Market, here and in Calcutta, on the firmness in Exchange, the demand for Government Paper has been decidedly stronger of late, and rates have advanced ¼ to ½ per cent., to-day's quotations being—Fours, Rs. 92½; Four-and-a-half, Rs. 98½. The movement is the more peculiar from the fact of the end of the year now coming out in a fortnight's time which it would naturally be supposed would tend to weaken the Market; in fact, under ordinary circumstances it could scarcely fail to do so, and a feeling is gaining ground therefore, either, that an attempt is being made to force up the Market for the benefit of loans, or that Government intend fixing a pretty high minimum, relying on a sterling loan at Home to make good any amount not taken up.

SHARES.—The transactions of the week have been on a very limited scale, real investors being as usual at this time of year almost entirely out of the Market. Amongst the brokers, however, there is always a certain amount of speculation going on, and prices fluctuate from day to day on the most trivial pretexts. For the time being *Spinning and Weaving* Companies' shares are the most favourite subjects of operation, the daily fluctuations in the value of C Ton affording some slight reason for raising or depressing prices. The result of the movements this week has been as a general rule in favour of buyers. We note a decline of Rs. 200 in Bhownugger Mills, Rs. 80 in Soonderdass ½ shares, and Rs. 25 in fully paid up, Rs. 75 in Ahmedabad, Rs. 35 in Prince of Wales, Rs. 25 in Hydrabad, Rs. 20 in Hindustan, Rs. 10 in Jewraj Balloo, Rs. 5 in Anglo-Indian and Great Eastern, and Rs. 2½ in Bombay Hemp and Jute. A rise of Rs. 10 has taken place in General India and Khandeish, and Rs. 5 per share in Dhurumsey and Manockjee Petit. In *Bank* shares there has been a decline of Rs. 2 in National, but Bank of Bombay have recovered ¼ per cent., closing at Rs. 660. *Land* Companies are little dealt in, but we notice an advance of Rs. 5 in Colaba and a decline of Rs. 100 in Mazagon. *Press* shares are somewhat irregular, but with a short Cotton season such as we are having the tendency is naturally downwards. There has been an advance of Rs. 50 in Scinde and Punjab, Rs. 20 in Bellary and Rs. 10 in Albert Company and Kurrachee and New Brarar, but on the other hand there is a decline of Rs. 100 in Prince of Wales, Rs. 50 in Fort Press and Sassoon, Rs. 25 in Colaba, Rs. 15 in Scinde Press, Rs 10 in French Press and Rs. 2 per share in Broach Cotton Company. Amongst Miscellaneous Companies the only movement to notice is a decline of Rs. 5 in Bombay-Burmah Trading Company.

PIECE GOODS.—The general tone of the Market this week has been decidedly quieter, and busines has been on a reduced scale, the clearances from the bazaar being only estimated at about 1,800 packages. Prices are not quotably lower, but the tendency has certainly been towards easier prices, and in some cases to put through transaction of any importance a slight concession has been accepted. So long, however, as Manchester continues firm we are not likely to see much giving way here, as stocks are not excessive, while supplies from home are not being pushed forward in the reckless way which previously characterised the trade.

Grey Goods.—In Shirtings the demand continues to run mainly on the standard makes of 39 inch, 6lb., 7lb and 8½lb, but more especially the latter, for which comparatively full rates are still obtainable. The wider makes are not active and prices are only barely supported. Printers are in comparatively small demand and rates are unchanged. Mulapolams are steady at former prices, but the clearances have not been large. T. Cloths are only in very moderate demand and, if anything, values are the turn easier.

For Jaconets and Mulls a moderate demand prevails and quotations are unaltered. The same may be said of Dhoties of which about average sales have been effected. *Bleached Goods* are not so active as formerly, and with the exception of Jaconets and Mulls and some medium makes of Shirtings the off take has been small. Prices, as a general rule, however, are nominally unchanged. In *Dyed and Printed and T. Red* Cloths there is still very little doing, and the Market is still weighted with an excess of stock. Prices are nominal y unchanged but sales of any quantity can only be effected at a concession. *Coloured woods* clearances for the week, although not large, have been about equal to the production and quite previous prices are obtainable.

TWIST.—The demand for English Yarns this week has undergone a marked improvement, and considerable sales have been effected at an advance of ¼ to ½ anna per lb. in 20s and 30s Water and 30s and 40s Mule, whilst better prices have also been obtained for Mock Water. The clearances made have reduced stocks materially and the Market closes with a firm appearance. For local made yarns a moderate export demand has been experienced, but sale on the spot have not been large and prices are not quotably higher.

METALS.—*Copper.*—The Market remains very quiet at the decline noticed last week and supplies are beyond the present demand. In *Yellow Metal* there has also been very little done and prices are unaltered. *Iron*.—The activity apparent last week has not been maintained and although there has been no relapse in values buyers are less disposed to operate.

COAL.—A fair demand still prevails to arrive although owing to the absence of sellers but a very small business has resulted. The balance of the cargo of Davison's West Hartley per "Great Victoria" via Cape has been sold at Rs. 21½, and a cargo of Cardiff, also via Cape, is reported to have been placed at Rs. 21½ per ton alongside.

COTTON.—After some rapid fluctuations our Market closes quiet at a decline of Rs. 2 to Rs. 3 per candy from the rates quoted by last steamer. In the early part of the week a sudden fall of Rs. 4 to Rs. 5 per candy took place owing to a decline of about ¼d. per lb. in "arrivals" in Liverpool and "futures" in New York, and for the time being a very weak feeling prevailed with every appearence of a further fall, even the up-country Markets having been depressed below the level of Bombay, a most unusual thing this season. On Wednesday afternoon, however, a recovery set in on the strength of stronger advices from Liverpool, and by Friday Morning the whole of the previous fall had been recovered. On Friday afternoon, a somewhat easier feeling again became apparent, owing in the first instance to the rise in Exchange, but Saturday's accounts from Liverpool being quieter we have gone back Rs. 2 to Rs. 3 per candy from the highest point.

The *purchases* for export this week have not been so large as in it, the total reported in Bombay, exclusive of up country operations being only about 12,000 bales, consisting of about 2,500 bales Dhollera, 2,500 bales Ginned Broach and the balance of Omrawuttee descriptions.

The *Receipts* from up country show the following comparisions:—

	1879.	1878.	1877.
For the week	43,516	33,884	49,872
Total Since 1st Sept.	487,345	654,814	792,266

The *Clearances* for sea since the departure of last Mail have been 32 770 bales, making a total since 1st January of 270,046 bales against 409,324 bales for the corresponding period last year. The distribution to dates as compared with last season is thus reduced to 139,178 bales, and from all we can see we are inclined to think our reduced estimate of last week, in which we put the probable sailings for the six months at 550,000 to 575,000 bales, will prove very near the mark. A great deal, however, depends on there being an early or a late break of the monsoon as Omrawuttee is rapidly being worked into very small compass and Broach is showing signs of coming to an end in the course of another ten days, so that we shall afterwards be in a great measure dependent on what Dhollera comes forward, Dharwar this year being not only a very small crop but too late to exercise much effect on the shipments before the monsoon. Of Dhollera the arrivals so far have been very light, and it will be another fortnight before they begin to come in freely. Although the yield may be small the quality is very good, the great bulk being about Fully Good Fair while there is likely to be almost nothing under Good Fair throughout the season.

The following are to-day's quotations for full pressed Cotton with the equivalent in Sterling Cost and Freight to Liverpool via Canal without Commission :—

	Candy.	C. & F. Per lb.
New Good M. G. Broach, May	.... Rs. 241	= 5 15/16d.
" Oomra "	.... " 222	= 5¼d.
" F.G.F. Do. "	.... " 218	= 5¼d.
" G.F. Do. "	.... " 214	= 5¼d.
" Good Dholleras "	.... " 224	= 5¼d.
" F G F. Do. "	.... " 218	= 5¼d.
" G.F. Do. "	.... " 214	= 5¼d.
" Good Ginned Dharwar "	.... " 215	= 5 5/16d.
" G.F. Compta "	.... " 193	= 4 13/16d

The American crop figures to date give the following comparisons with the two preceding seasons :—

	1879.	1878.	1877.
Week's Receipts	36,000	33,000	26,000
" Exports to U K	27,000	48,000	28,000
" " Continent.	9,000	32,000	11,000
Total Receipts since 1st Sept.	4,279 000	4,05 .000	3,804,000
" Exports to U K ... "	1,782,000	1,738,000	1,746,300
" " Continent. "	1,339,000	1,108,000	868,000
" Stock at the Ports.	400,000	446,000	582,000

The visible supply of Cotton for all Europe on the 25 h instant compares as follows with the corresponding date on the two previous years as follows :—

	1879.	1878.	1877.
Total supply of all kinds ..	2,150,000	2,578,170	2,994,990
" " " Surats...	340,000	333,330	542,490
For the U. K. only the figures are :—			
Stock in Liverpool.....	606,000	861,730	1,144,630
Do. London.....	56,000	13,150	46,370
American afloat.....	220,000	222,000	141,000
E. Indian "	97,000	91,000	153,000
Total.....	979,000	1,187,880	1,485,000
Price of Mid. Orleans...	6 7-16d.	6 3-16d.	6½d.
" Fair Dhollera...	4¾d.	4 13-16d.	4 11-16d.
Difference.....	1 9-16d.	1¼d.	1 7-16d.

SEEDS.—*Linseed.*—The advance in prices at home has led to an active demand here, and supplies being still small prices have been pushed up to Rs. 7 per cwt. For *Rapeseed* the enquiry has also been very active and purchases of Y-low Guzerat have been made up to Rs. 7-4 per cwt. *Gingelly* is in very small supply now and the quality is rapidly falling off. Quotations are Rs. 42 to Rs. 43½ per candy according to quality.

Bar Silver	50

Arrival.—Rugby (?) on 24th.

Departure—Ashburn.

STEAMER REPORT.

GALLE, APRIL 26, 7-15 A.M.

Mail steamer Thibet, from China, arrived.

MADRAS, APRIL 26, 9-30 A.M.

Singapore 26th, Manila 1 p. m. Monday.

THE Portuguese man-of-war India, which left Goa on the 15th instant, conveyed to Portugal the remains of the three Governors General, Baron of Condol, Tavaria de Almeida, and Viscount Sergio de Sousa, who had died at Goa. The remains from the Convent of St. Caetano were removed with the usual religious ceremony, and brought in separate boats attended by the principal officers of state; and under a salute of 21 guns were put on board, the crew receiving them with due honour to the memory of the departed personages.

THE *Bombay Guardian* expresses the wish that if Professor Wordsworth returns to Bombay, "it may be as a wiser and better man." Are we to understand by this, that the editor of the *Guardian* is unhappy because he is wiser and better than the Professor? Whatever the interpretation may be, it has the smack of the Pharisee, who thought himself so much holier and more favoured from above than others. Christian pity of this order, which is condemned by the highest authority, neither Professor Wordsworth nor any other man stands in need of.

THE Peveril of the Peak, which recently arrived in the Madras roads from Pondicherry with a view to securing an offer of purchase, has, as in that port, been unsuccessful, and she left on Thursday last for the Burma coast, where the owners hope to secure a better offer than has yet been made in any of the ports visited. The largest bid made was one of Rs. 20,000.

THE *Pioneer*—Major Cavagnari, accompanied by an escort of Guides and conducted by a person of suitable dignity appointed by the Afghan Government, is, we believe, about to start for Kabul to negotiate personally with Yakub Khan. Our information from Gundamuk describes the preparations for his departure as nearly complete. Until he has started, it remains possible that difficulties may arise, but the idea of his recent conferences with the Viceroy is now clear. Guided by these, in one interview he will do more than by weeks of correspondence. The army will chafe at the delay; but once sack Kabul, and Yakub is left without a pretext enough to make peace. Anarchy of Afghanistan could easily be established but cannot be desired.

THE *Bombay Catholic Examiner* relates with all due gravity and assurance the following extraordinary miracle:—"Major General the Hon'ble Henry Clifford, who has by this time probably left for South Africa, to be second in command under Lord Chelmsford, is brother of Lord Clifford and of the Right Rev. the Bishop of Clifton. He was educated for some years at the Jesuits' College at Fribourg, in Switzerland. Whilst he was there in the class of Humanities, he happened to be laid up with a tumour on the foot, that caused him excessive pain, even so that his life was considered to be in danger. When the crisis was at its height and all the inmates of the College were anxiously praying for his recovery, a relic of the holy garment of our Blessed Saviour was applied to the afflicted part and the sufferer was instantaneously free from all pain. He ran without delay to make his thanksgiving in the church, whither he was followed, with almost equal speed, by a venerable Jesuit Father of the establishment, who, such was his sedateness and gravity, had never before been seen to run. This wonderful cure happened in the year 1843, if we are not mistaken. We remember being told of the fact soon after its occurrence, and we have just had it narrated to us by one who was studying Theology at the time at Fribourg. A story which illustrates the General's presence of mind was told lately in the *World*. One day during the Kaffir war of 1846, he sat down on the ground, placing one hand beneath him for the purpose. He felt something clammy to the touch, and found to his horror it was a puff-adder. With admirable self-possession he refrained from drawing away his hand which would almost certainly have been stung in the act; but holding the snake down with one hand, with the other he drew out his clasp-knife, and opening it with his teeth, coolly severed the reptiles head from its body. This little incident proves that General Clifford is the possessor of qualities which will probably have considerable scope before the Zulu campaign is brought to a successful close."

WE (*Englishman*) learn that Babu Gopaul Chundra Mukerji, the sub-editor of the *Sungbad Provakur*, is engaged in the work of publishing a translation into Bengali of Mr. Wheeler's "History of the Imperial Assemblage."

THE *Pioneer* says:—General Biddulph's staff and the force which is now coming with him from the Vatakri camp, namely, the 70th Foot, 8th B. C., and the 5th Company of Sappers, will be broken up at Multan most likely at the end of the month.

ACCORDING to reports which the *Civil and Military Gazette* has received from Dera Ismail Khan, it is believed there that no expedition against the Mahsuds will be authorized before October or November next. At any rate, there are no troops available for the purpose now. Nor are their any signs of preparation for punishment of the Waziris. Meanwhile, a small force of 100 cavalry, and as many infantry, will be left at Tank, under an officer of either branch.

THE Lahore paper says:—Typhus fever has broken out rather severely in the local jail; 30 deaths have already occurred. There are about 2,000 prisoners in the jail; it is thought that the disease has been brought in by prisoners recently incarcerated, as typhus prevails in the town. Cholera also has made its appearance in Lahore, seven cases have been registered, and there were two more on Monday; one, a Eurasian woman, was admitted into hospital.

THE reports of the health of the people of the Central Provinces continue unfavourable. Cholera prevails at Sumbulpore, Belaspore, Raipore, and Bhundara. Small-pox continues to ravage Belaspore, Balaghat, Raipore, Chanda, Bhundara, Jubbulpore, and Sangor. In Jubbulpore there were 876 cases with 154 deaths; at Sangor 121 cases and 6 deaths; at Raipore 28 cases and 60 deaths. Raipore, Belaspore, and Jubbulpore appear the most unhealthy.

A BILL for establishing rural police in British Burma, and enabling the Local Government to impose a cess for this object, has been submitted by the Chief Commissioner and will soon be laid before the Legislative Council. Additions to the number and salary of the lower grades of the regular police in the same province, which will cost about Rs. 1,29,000 per annum, have been sanctioned. The increase in the salary of the lower rank has been necessitated by the increased price of food and the rise in wages in British Burma.

THE *Pioneer*—The King of Burma's Minister, replying to inquiries from the Government of India, strenuously denies the statement in Reuter's telegram that the King has made a defiant speech in Council. Reports of this action of the King's originate apparently in the warlike enthusiasm which prevails at Rangoon. But public opinion should guard itself against irritating statements designed to serve a private end. Neither to spread civilization nor to improve trade is it the duty of the Government of India to make war on Mandalay. To resent outrage war might be necessary, but Government would not be justified in assuming too hastily that an outrage is intended.

THE *Civil and Military Gazette*.—General Phayre is now in the Dozan nullah, about 12 miles north-west of Mach. He has the 19th Bombay Native Infantry with him, and is endeavouring to make a road to the Du-ht by that route. The whole of the siege train, consisting of an engineer park, a battery of 25-pounders, a battery of 40-pounders, and a battery of the new 6·3 inch howitzers, with large stores of ammunition, &c., has arrived at Mach in the Bolan. It will move on to Quetta with its escort, the 1st Bombay Grenadiers, as soon as the new road is finished.

THE following telegram is published by the *Madras Mail*:—"Rajahmundry, 24th April.—The rebels, headed by Tamen Dora, after attacking Kota, proceeded to Vizagapatam district, and attacked Adathegala police station. There is no chance of a termination to the Rumpa business, till picked policemen are sent to keep pace with the rebels in hill-climbing and jungle-penetrating. The police and military are becoming fever-stricken. The Zillah Surgeon, Dr. Anderson, proceeded on the 14th to Rumpa. Dr. Balderston is in charge of the station. The Collector, Sub-Collector, Colonels Robertson, Cunliffe, &c., are still at Rumpa. What they are doing is not known."

THE *Civil and Military Gazette* says:—It is rumoured at the frontier that the late Akhund of Swat is likely to have a worthy successor. Fakir Saheb is a Mahomedan fanatic who a few years ago came from Herat and settled as a student in a village of the Peshawar district, and subsequently in the mosque of the city. Having established his reputation as a man of sanctity he, at the commencement of the present campaign, proclaimed himself a Ghazi. For this purpose he left the Peshawar district and settled amongst the Mohmunds, amongst whom he is reported to have organized a very large following. He is supposed to have been instigating a Mohmund raid on infidel territory.

THE *Statesman*—We are becoming more and more uneasy every day at the support given by us to the License Tax, when it was before the Council last year. We had ever felt the independency of such taxes in India, and opposed them consistently from the time when the first tax of the kind was imposed upon the country, by Mr. Wilson in 1860. We gave the present tax a reluctant support, because we had repeatedly assured the Government of our willingness to bear any burdens that it might lay upon us, to save the people from starvation. It was avowedly imposed for this purpose, and for no other, yet we now have the double distress of seeing the proceeds of the tax devoted to the prosecution of a senseless and unjust war, and of finding it to be the parent of an amount of suffering amongst the people that we never for a moment foresaw.

A CORRESPONDENT at Kandahar writes to the Lahore paper that the following troops under General Palliser are ordered to proceed to the Khakreez valley:—1st Punjab Infantry, with Major C. S. McLean, Commanding; and Captain J. B. Atkinson, Captain H. D. Hervey, Captain D. S. Cunningham, Lieut. A. B. Muir, Lieut. W. Hennell, and Dr. Fullerton; also the 2nd Beluch Regiment with Col. Nicholetts, Commanding; and Col Tanner, Major Galloway, Lieut. Broom, Lieut Beville, and Dr. Adams, Major F. Lance, of the 2nd Punjab Cavalry, likewise proceeds, together with Captain Layard, of 11th Battery, 11th Brigade, Captain Rogers, Royal Engineers, Capt. Sartorius, H.M. 59 h Regiment, and Lieut. Baynes, 60th Rifles. With the force marching to the Khakreez Valley, Captain Abadie goes as Brigade-Major, Captain Lawrence as Transport Officer, and Captain E. B. Bishop.

THE *Englishman*—For several months past we have been in regular receipt of special telegrams through Peshawar regarding the movements of the force at Jallalabad and other matters connected with the campaign. Since a comparatively early period of the war, when great, and in many cases most unnecessary, obstacles were thrown in the way of the dispatch of messages, no objections have been raised by the telegraph authorities to the contents of these messages though on numerous occasions they concerned future military movements; and we naturally concluded, that whether owing to the force having reached a position so far beyond our frontier, that news, transmitted by post to Peshawar and thence by wire to Calcutta, could hardly reach Kabul in time to do any harm, or for whatever other reason, all restrictions had been removed. Yesterday, however, to our surprise, we received from our telegraphic agent at Peshawar, a copy of a telegram which he had sent to the telegraph office there for transmission to us on the 18th instant, but which was returned on the ground that it referred to the "future disposition and movements of our troops."

THE *Civil and Military Gazette*—At their present rate of progress, the Cashmere famine contractors will probably deliver their one hundred thousand maunds of grain at Srinagar, some twelve, eighteen or twenty-four months hence. Of the two months allowed them for transport, one is already spent; and only ten thousand maunds have been conveyed even as far as Bhimbhar, just within the Cashmerian frontier. We are also informed that a few days ago the Deputy Commissioner of Jhelum gave orders for the disbandment of 1,700 donkeys that had been collected for the work. Between the leisurely movements of the transport service and the manipulations of the native officials entrusted with the task of distribution, it will fare hard with the wretched Cashmerians. This is a matter which, we do not doubt, will engage the attention of the Lieutenant-Governor, now that he is at Jhelum. And we would take the liberty of again suggesting to His Honour, the absolute necessity of entrusting English officers with the complete control and supervision of relief. If once the facts are represented to the Lieutenant-Governor, we shall have every confidence in the result.

OUR correspondent at Mach tells us (*Civil and Military Gazette*) that about twelve baggage camels, accompanying a siege battery of the Royal Artillery, were looted recently by the Murrees, at a place near Dadur. In crossing one of the temporary bridges built by General Phayre over the affluents of the Bolan river, one of the four forty-pounders was precipitated into the water. The sepoys were therefore withdrawn from the camel escort in order to assist in the task of extrication; and the drivers were ordered to proceed, but to await the arrival of the troops at some point on the march. The drivers, however, thought fit to exceed their instructions. They marched on, unprotected, and the Murrees, who were on the watch, swooped down upon them, and then ran away with everything worth taking. The escort was in charge of Lieutenant Addison, R. A.; but a smaller convoy under Lieut. Chippendall, R. E. was also marching on the same route and ahead of the former. Lieut. Chippendall's camels were also looted with the others: and that officer appears to have suffered heavy personal loss in money and equipment. Other barbarians besides the Zulus are skilful in ambuscades; and others, besides our British African countrymen, are sufficiently remiss, or sufficiently unfortunate, to fall into them.

THE *Times*—Economy is, after all, the chief resource to which Indian statesmen must look to get them out of their financial troubles. India cannot well bear any great addition to her taxes. To raise money by loans, either here or in India, is a somewhat shortsighted device, which must fail sooner or later. The Irishman who renewed a bill for six months, and thanked God he had done with that job, is scarcely to be taken as a model by the responsible managers of our great Eastern dependency. Economy there must be, and the only real question is in what quarter it may most advantageously be applied. The civil charges of India do not seem to admit of any great reduction. If the country is to be well administered, the cost of administration cannot be made very much less than it is. In public works there is more room for reduction, or, at least, for a better choice of investments more likely to yield an equivalent for the sums spent upon them. But the charges for the army are a more important matter even than these, and we may look to them most certainly as admitting of very large retrenchment. If the large army was ever necessary for the protection of India from foreign attack, it has ceased to be so now that our north-western frontier has been secured and made impregnable. As matters now stand, therefore, a large army can, as we have before pointed out, serve no useful purpose whatever. Beyond the force required for frontier defence—and if a scientific frontier has any meaning, this force need not be large—there are no soldiers needed except for the maintenance of internal order. If the armies of the native Princes must be held in check, the obvious course would be to insist that they, as well as our own, should be reduced in numbers. India now maintains a total of about half a million soldiery. Something more than two-thirds of these are paid for out of the Indian Treasury. Mr. Stanhope's financial proposal, however extraordinary in itself, will serve, at least, to direct attention very usefully to this subject. The question what use we are to India must be met in some better way than by a scheme for an Indian loan, which will only too certainly be swallowed up with no permanent benefit to the country. An improved financial administration may come when the army has been reduced, but it can hardly come sooner. This is the conclusion to which the state of the Indian finances points now more imperatively than ever. It is the simple but sufficient solution of the whole financial problem.

WE take the following from *Truth*:—This story, if true, shows that discipline in the gallant "Devil's Own" cannot be of the strictest. Mr. L——, a member of the Northern Circuit, well known for his joking propensities, was after much persuasion induced to join the Inns of Court Volunteers. While drilling one day with the Devil's Own, the order was given to "double." When "halt" was ordered, this gentleman's rear-rank man slightly prodded him with his bayonet. Mr. L—— threw himself on the ground and roared for the ambulance, declaring that he was "wounded." His corporal in vain attempted to soothe him and to induce him to regain his legs. His only answer was that he was "wounded," and he demanded to be carried off in the ambulance. Then up came the captain of the company to see what the hullabaloo was about. To the plaintive request for the ambulance, he gave an angry and contemptuous refusal. Whereupon Mr. L——, with solemn and virtuous indignation, rose to his feet, threw down his rifle, and thus unburdened his mind: "I came here to play soldiers, and if you won't play the game properly, I won't play at all." And he marched off amid a roar of sympathising laughter.

A DANGEROUS CHARACTER SENT TO PRISON.

(FROM OUR OWN CORRESPONDENT.)

POONA, APRIL 25.

THE charges of house-breaking and theft against James Wright *alias* John Oswall, who was committed to the Sessions Court by Major T. Trueman, Assistant Cantonment Magistrate, were investigated this morning by Mr. Justice Newnham, and a jury composed of the Parsee and four native gentlemen. It appears that on the morning of the 19th instant at 2 o'clock, the prisoner opened the lock of the house of a native convert, named Samuel Narayen, who is residing in the compound of the Baptist Chapel, and stole therefrom articles of the value of Rs. 6-2. As the prisoner was running the police, the complainant awoke and gave an alarm, when the prisoner with the bundle under his arm, jumped over the compound wall, and was immediately afterwards arrested by two policemen. During the preliminary investigation of the case, it was discovered that the prisoner had been employed on the G. I. P. Railway, but latterly had wandered all over India. He spoke English and Hindustani, and understood Marathi remarkably well. His appearance and deportment whilst in the dock were remarkable, and he showed himself to be a very shrewd nigger. He cross-examined and re-examined the witnesses for the prosecution, for the police, and it was this that Mr. Major Trueman to suspect that Wright was an old jail bird, and Mr. Justice Newnham remarked this morning, at the conclusion of the trial, that the prisoner was placed at no disadvantage, for he defended himself more adroitly than any Mooktear of his court could have done. Mr. Chief Constable Smith, who prosecuted the case, telegraphed to Bombay and Madras, the result of which was that a register showing eight former convictions against the prisoner was received from the former place signed by Mr. Superintendent Mills and Mr. W. Purvis, an assistant to the Marshal of the County Gaol. The prisoner betrayed no feelings of compunction either before Major Trueman or before Mr. Justice Newnham, on the contrary he was most obdurate and indifferent. Major Trueman's examination of the prisoner, which, of course was used against him in the Sessions Court, was as follows:—

Q.—Where were you born? A.—In the West Indies in Demarara.

Q.—Were you not born in Mozambique? A.—No. I never saw the place.

Were you sentenced by Mr. Nana Morojee to four months' hard labour on the 16th October 1868 for theft? I was not.

Q.—Were you fined Rs. 10 or in default 20 days' hard labour, on the 29th December 1869 for assault by Mr. Nana Morojee. ——I was.

Q.—Were you sentenced to six months' hard labour on the 27th May, 1870, by Mr. Nana Morojee? A.—No

Q.—Were you sentenced to three months' hard labour on the 20th February, 1871, for being suspected of theft? A.—Yes I was.

Q.—Were you sentenced to six weeks' hard labour on the 23rd June, 1871, in Bombay for assault? A.—Yes. I was convicted but paid my fine.

Q.—Were you convicted on the 29th May 1869, of committing an injury accompanied with force against the person and property of Shamjee Soondarjee, and sentenced to pay a fine of Rs. 5 or undergo seven days' hard labour? A.—I was not.

Q.—Were you sentenced to undergo one month's hard labour on the 18th July 1872 for loitering? A.—Yes, I was.

Q.—Can you prove you are a British born subject? A.—No, I have no witnesses.

Q.—Have you any papers to show who you are? A.—No, I am not in possession of any.

Q.—What were you doing in the Petty Staff Lines on the night of the 18th between 2 and 4 a. m.? A.—I was laid up sick for eight months, I was going to the rifle range to pick up lead.

Q.—What were you doing with the bundle? A.—I did not have it in my hands.

Q.—Did you steal the contents? A.—I did not do so.

Q.—Did you go to the house of complainant? A. I did not.

Q.—Do you wish to say anything? A.—I could not jump over the three walls, even if I had the bundle. I wish to point out that the rice in each bundle is different—one is dirty, the other clean.

Q.—Did you go by the name of John Cowall? A. —Yes, I was young then.

In charging the jury Mr. Justice Newnham read over the depositions, and commented upon them at some length, observing that one punishment, by a recent ruling of the High Court, could be awarded for both the offences, viz., that of house-breaking and theft. He dwelt on the three statements made by the prisoner, when arrested, viz. that he was going to the police on the 19th inst. with the complainant; that he was going to the slaughter yard; and 3rd, that he was going to the rifle range to pick up spent bullets. The Sessions Judge also laid great stress upon another statement which the prisoner had made to the police when arrested, viz., that "he was not the thief, but another who has just ran a head; go and catch him." And finally Mr. Newnham referred to the evidence of the Rev. Mr. Hormusjee Pestonjee, and one Fuckroo, a mulateer attached to the Commissariat Department, both of whom were called by the prisoner in his defence. The evidence of these two witnesses, after being taken all, went to shew that they knew nothing about the robbery or the prisoner's arrest, and it is difficult to say why they were called. The jury returned a verdict of guilty on both charges. Mr. Justice Newnham, in passing sentence, told the prisoner that if there was a third conviction of theft in addition to those already recorded, his prisoner rendered himself liable to a long incarceration for life, or a period of fourteen years, but considering all the circumstances of the case he could not pass a lighter punishment than one of five years' rigorous imprisonment. The prisoner was then removed.

INDIAN TOBACCO INDUSTRY.—Two years ago Messrs. Begg, Sutherland and Co. took over the Ghazipore tobacco-farm which had hitherto not been very successful. Under their energetic supervision very favourable results have been obtained, and it may be fairly hoped that the cultivation will continue to improve and extend. The results would have been still more satisfactory, but for the continuous ill-health of the curer, Mr. Williamson. Some tobacco sent home for sale last year realised three times as much as any Indian tobacco previously exported. An English firm of tobacco manufacturers have offered to take a large supply of the leaf annually at rates which will give a fair profit. A trained curer is shortly to be added to the assistants on the farm, and it is hoped that Messrs. Begg, Sutherland and Co. will soon be able to supply a good brand of cigars. An attempt made last year to grow tobacco at Dinapore did not prove very successful, but another endeavour is to be made this year, and it is hoped the result will be more satisfactory.—*Statesman*.

A CLEVER rogue in Paris recently managed to rob the director of a London banking establishment of a travelling bag, containing eight hundred pounds in gold, while on his way from London to Paris. Having remarked that an individual seemed to follow him with somewhat suspicious persistency when he arrived on board the Calais boat, he took the precaution to place the precious bag on one of the seats in the cabin, and to use it as a pillow. In this position he fell asleep, but was suddenly awoke by a tug at the bag. He jumped up, but the rascal he found less than simulated drunkenness kept his suspicions to himself, resolving to keep better guard. On reaching Calais the traveller placed the bag on the seat of a first-class carriage, and as he was its only occupant stood as sentinel at the door. Unfortunately the ingenious thief was not to be outdone. Slipping round behind the train, he entered by the opposite door and possessed himself of the treasure, while the bank director was looking for him among the crowd on the platform. The police were immediately informed of the affair, but no trace of the thief could be found.

SPORTING NOTES.

I SEE by an advertisement in the papers that Polo ponies are in demand in Bombay. I am afraid this is very much the case in other places also. Animals with four legs, ill-shaped, and fit to carry but little more than their own carcasses, can no doubt still be got in abundance; but well-shaped ponies, up to weight, seems to have almost disappeared from the country. It was, I believe, thought that by raising the height from 13 hands to 13-1 the difficulty—at all events for heavy men—would be considerably lessened; but I think it is open to discussion whether this change has not increased it. Light men can afford to buy weeds; but 13-1 ponies, compact and strong, are much more scarce at present than equally good ponies half a hand lower. I think, however, that heavy men often throw away a good chance by rejecting an animal that does not *look* up to their weight. It is astonishing what a comparatively weedy pony will carry—and carry well—if only properly fed and put in good condition *before the screw is put on him*. Did not the heavy Captain Burnaby, of Khiva fame, ride a weedy pony of 13-2 several hundred miles at the rate of 20 or 30 miles a day, and did not the said pony carry him 12 or 15 miles the last day within one hour. His riding weight was over 17 stone.

I wonder when the controversy about the length of tigers is going to end. Judging from their letters, some of the numerous correspondents who have entered the lists really think that an inch or two more or less in the length of the tail is an indication of increased size or the reverse. I have already looked upon any test that includes the tail measurement of an animal as utterly absurd and certainly not worth half the discussion that has been expended upon the present controversy. The true test of the size of a tiger is girth, circumference of neck and forearm, length to the *root* of tail and weight. If I shot a tiger who answered satisfactorily to the above conditions, I should not much care whether his tail was long or short.

It is a very remarkable thing that when any of these discussions arise there is at once a most wonderful difference of opinion, and still more remarkable, this difference of opinion is not merely confined to griffins who are scarcely competent to give evidence on the matter; but inequally manifested amongst experienced shikarees, amongst whom some sort of unanimity might be expected to prevail. I remember eight or ten years ago a furious war waswaged in the papers as to whether bison ever charged—some correspondents stating that bison shooting—so far as danger was concerned—was as tame as calf-shooting, and others, waxing wrath, described the fury of the bison as terrible, and the sport full of danger. There is a good deal of truth on these occasions on both sides; but what surprises me is, that experienced sportsmen often do not seem to comprehend the cause of all this discrepancy of statement, and thus allow the non-sporting public, bewildered by the conflicting opinions, to run away with the impression that the experience of old shikarees is after all not worth much. There is, however, generally an explanation. Take the case of the bison charging. I can fully believe that a man may shoot 20 bison and never be charged once. I can believe it for two reasons. In the first place, he may be a dead shot and kill his bison dead the first bullet; and secondly, he may be a cautious man, taking care not to get *too near* and resting satisfied with a long shot. If at the same time he succeeded in getting to windward of them, I can quite believe that such a man might perhaps never be charged. I can understand another man shooting the same number of bison and being charged half a dozen times. He may be a bad shot, and keep peppering the animal without putting his bullets into a vital spot, and thus madden the brute with pain. He may at the same time be rash, or of an excitable nature, rush forward without taking any precautions, after wounding an animal, and have constantly to bolt for his life in consequence. If a little more reflection was thrown into the narrative of sporting experiences than is sometimes the case at present, they would lose nothing of their interest, and be far more valuable as permanent contributions to sporting literature.

Talking of the size of animals, I see that a contributor to the *Asian*, who gives a glowing account of an "exciting day," finishes up the same with the measurements of the boar who afforded him such exciting sport, and whose skull and tusks he considers are worthy of being kept in remembrance. He gives the girth as 37 inches and weight 160lbs. I always thought the Bengallees looked down upon the hog hunting in Western India because the pig on this side were so small, whereas in Babooland, where everything is on a celestial scale, giants were the rule and not the exception. I have measured and weighed over a hundred of the poor specimens we have in Duckland, and I should call the boar whose measurements have been considered worthy of record in our Indian "Field" a poor specimen. The measurements of what we call a really fine specimen will be found in the *Oriental Sporting Magazine* for 1870; he measured 47 inches round the neck, 55 inches round the girth, and weighed 300lbs. This of course was an exceptionally fine monster of the giant breed, but nothing under 200lbs. with a girth of about 42, can, in my opinion, be called a "heavy" pig.

What the sportsmen always measuring the height of pig? It is as about as much of a criterion of the size of a boar as the length of the tiger's tail is of the size of a tiger. It is quite ludicrous sometimes to watch a man who believes firmly in this test pulling the foreleg of a boar after he has been killed to try and screw an extra inch for his height. I have not my notes with me, but if I remember right, I once killed a boar of exactly the same weight as the one reported by the correspondent of the *Asian*; and his height was 37—fair measurement without any stretching—but he was all legs and no carcase. He was a very good one to travel; but I never looked upon him as a fine specimen of the porcine species.

A correspondent of a contemporary wants to know whether there is any way of giving cooltee and linseed to race horses except that of boiling it, and whether it would not do as well to grind or soak these grains, instead of cooking them. My advice to him is to stick to the orthodox method, and pay for the fuel. If wood is expensive, perhaps cowdung cakes might be used as a cheap substitute.

W. A. S. P.

GUZERAT MONSOON MEETING.

STEWARDS.—A. A. Borrodaile, Esq., C.S.; Col. Utterson, 15th Regt. N. I.; Major Westmacott, 29th Regt. N. I.; A. Larkan, C. S.; Col. Stevenson, R. A.; Capt. Willoughby, 3rd Q. O. L. Cavalry; Capt. Smyth, 2-15th Foot; C. H. Rickards, Esq., R. A.; Hon. Secretary, Capt. Humfrey.

1ST DAY, AUGUST 5TH.

The Derby.—Rs. 400 from the Fund. 1½ mile. For all Arabs and country-breds. W. A. C. Maidens allowed 7 lbs. Winners once 4 lbs., twice 7 lbs, three times 10 lbs. Gallowayes allowed 5 lbs. Entrance 1st July 1 G. M., 1st Aug. 2 G. Ms.

The Revival Cup.—Rs. 300. For all horses W. A. C. raised 21 lbs. Maidens allowed 10 lbs. Entrance as for Derby.

Saburmattee Plate, Rs. 250—Steeple chase for all horses 14 hands and under, 1½ miles. Fourteen hands to carry 11-7; 2 lbs. for every quarter inch under. Entrance 1st July Rs. 10, 1st Aug. Rs. 20. Penalties as for Derby.

Pony Plate.—Rs. 100. 3 furlongs. For all ponies. 3-2 to carry 11-7; 2 lbs. for every ½ inch under. Maidens allowed 7 lbs. Those that have never started 3 lbs. Winners once 4 lbs, twice or oftener 7 lbs. Entrance Re. 5.

A Cup.—Value Rs. 200, presented by H.H. The Thakore Sahib of Palitana. For all horses, the produce of a Kattywar mare by an Arab Stallion. ½ mile, 11 stone. Gallowayes allowed 10 lbs.

2ND DAY.

Charger Race—Rs. 150. For all Arab & C. B. chargers. W. A. C. raised three stone. Entrance Rs. 10.

Glencoe Cup—value Rs. 600, presented by Captain Humfrey.—Steeple chase for all horses. W. A. C. raised 35 lbs. 2½ miles. Winners once 4 lbs. twice 7 lbs., three times 10 lbs. Four horses to start. Entrance free. Noon the day before the race.

Sensation Handicap.—Rs. 250. For all Arabs. C. B's. and Gallowayes. ½ mile. Entrance Rs. 10.

Gimcrack Stakes—Rs 150. Handicap for all ponies. ½ mile. Entrance, Rs. 10.

3RD DAY.

Hurdle Race—Rs. 300. For all horses. W. A. C. raised 2 stone. 1½ miles. Entrance and penalties as for Derby.

Surat Cup.—Rs. 300. For all Arabs and C. B's. A Steeple Chase. 11st. 7 lbs. Entrances, allowances, and penalties as for Derby.

Flat Race.—For Arab and C.B. Hacks, Rs. 100. Winner to be sold for Rs. 100. ½ mile. Weight for value Rs. 600 to carry 12 stone. 7 lbs. allowed for every Rs. 100 under. Entrance Rs. 10.

The Wind-Up Handicap.—Rs. 250. For all horses. 1 mile. Entrance Rs. 10.

RULES.

1. W. I. T. C. Rules. Local rules excepted.
2. Owners of horses to be members of the services in Government employ, or of any recognized Club, or residents in Guzerat or Kattywar.
3. Owners of horses running to subscribe Rs. 30 for ponies Rs. 15.
4. Three horses to start, or added money will be withheld. If 4 start 2nd to save his stakes.
5. A course fee of Rs. 5 will be charged for all horses galloped on the course, and a fee of Rs. 5 for each horse taken once the Chase Course.
6. Owners can claim half their horses in the Lotteries.
7. The Steeplechase and Hurdle Races will be run under the new Calcutta Steeplechase rules.
8. Stabling can be obtained free on application to Honorary Secretary.

JOHN HUMPHRY, Captain,
Honorary Secretary.

THE "King of Terrors" seems to be making a raid amongst the prominent members of Bengal society. We have to record the death of Rajah Bejoy Kissen, Roy Bahadoor, of Udooi, which occurred on Saturday evening last. The Rajah, who was only thirty years of age, leaves a large estate in remindery and other property. He had the character of being a virtuous and charitable man, and was generally possessed of good qualities, which endeared him to those who knew him. His loss at so early an age is very unfortunate.—*Indian Daily News*.

BOMBAY.

THE following programme will be played by the band of the 9th Regiment N. I. at the Esplanade bandstand this evening:—

March.....	Broder Lustig.....	Unrath.
Overture	Fest	Leuhner.
Selection	Polinto I Martiri.....	Donizetti.
Valse	Lust and Leben.....	Gung'l.
Quadrille	Rossini.....	Godfrey.
Galop	Damen.....	Parlow.

A NEW INTERPRETER.—At the High Court on Saturday last, before Sir Charles Sargent, Mr. Fazulbhai Luttulbah was sworn in as an assistant interpreter and translator.

CRIMINAL BREACH OF TRUST.—Yankoo Ballou, a dhobie, was on Saturday last convicted by Mr. W. Webb on two separate charges of criminal breach of trust in respect of sundry articles of wearing apparel belonging to different parties, and was sentenced to an accumulated term of two months' rigorous imprisonment.

A BREACH OF THE HARBOUR RULES AND REGULATIONS—Jaswud Mucoan and three other tindels of native crafts were on Saturday last convicted by Mr. C. P. Cooper of anchoring their vessels in the fairway without exhibiting lights. Defendant No. 1 was fined Rs 20, two others were fined Rs 15 each, and the other was fined Rs 5.

ASSAULT ON A POLICEMAN.—Bood Dahjee and Bonjorjee Merwanjee were on Saturday last each fined Rs. 20, or in default to one month's rigorous imprisonment each, and further to be bound over in the sum of Rs. 200 each to keep the peace, by Mr. W. Webb, for assaulting and resisting a police constable while in the execution of his duty.

A POLICE INSPECTOR AND A NATIVE CONSTABLE SUSPENDED.—Mr. Inspector Millard and a police sepoy were placed under suspension on Saturday last by the Commissioner of Police, in connection with the case of Dorabjee Curseejee Patell (who was convicted at the last Sessions of the High Court of abetment of a public servant in taking a gratification), on account of the doubtful manner in which they gave their evidence before the High Court. Their conduct is under investigation by Sir Frank Souter.

A LARGE addition has been made to the establishment of Dr. Lumsdaine, Sanitary Commissioner, to enable him to meet the increased demand for information and supervision which the distress in various parts of the country will entail. The members of this establishment are strictly to watch the physical condition of the people in the Eastern districts. Dr. Lumsdaine has reported to Government his fears lest disease should break out in this district, in consequence of the low physical condition to which the people had sunk, owing to the famine and continued high prices. Dr. Lumsdaine fears, that if the people fall out of health, there may some day be such a prevalence of various diseases (owing from inanition) as we cannot successfully encounter.—*Deccan Herald*.

THE heat at Sholapur is very great just now, and there is much distress among the people, owing to the loss of the crops by the heavy rains and the plague of rats, with the consequent high prices. The railway from Sholapur to Gadag in East Dharwar has been sanctioned by Government. This railway passes through the most distressed districts, and will afford relief to a very large number of people, while, at the same time, a most useful work will be accomplished.—*Id*.

THE TRAFFIC ON THE G. I. P. RAILWAY.—The increase in goods traffic on the G. I. P. Railway for the week ending 19th April 1879 was 1,216 maunds, and in money Rs. 6,660. The quantities carried and the earnings compared with 1878 are as follows:—

ROGERS & CO.,
MANUFACTURING CHEMISTS.

GINGER ALE.
ACCORDING TO THE BELFAST FORMULA.

THIS most delicious aerated beverage has been only lately introduced into Bombay, and ROGERS & Co.'s will challenge comparison with any for its brilliancy and refreshingly exhilarative qualities. As with all our other aerated waters the greatest care is taken in all parts of its manufacture, pure water and pure chemicals being great essentials. No lead piping of any description is used in connexion with any part of our machines, and the use of steam power enables us to bottle at an invariably equal and sufficient pressure. Price Rs. 1-8 per dozen.

EDINBURGH WHISKEY.
We have now on hand a consignment of Maclean's celebrated Edinburgh Whiskey at Rs. 23 per dozen, acknowledged by all Connoisseurs to be the finest Whiskey in Bombay.

EXTRACTS OF BEEF AND MUTTON.
Prepared by ourselves from the very best meat to be obtained, and fresh stock being constantly made, we can confidently recommend these to invalids as the purest and best to be had. Far superior to any imported.

FLUID EXTRACT OF DANDELIN
AND
DANDELION TONIC.
These valuable medicines are constantly recommended by the Faculty in all cases of biliousness or disposition to Liver Complaint. We manufacture these in large quantities and have constantly fresh stock in hand. Price Rs. 2 and Rs. 3 per bottle.

FLUID EXTRACT OF BAEL FRUIT
AND
BAEL FRUIT PRESERVE,
So constantly recommended in cases of Diarrhœa and Dysentery, are also manufactured by us, and can be obtained fresh at any time at Re. 1 per bottle or pot.

INDIAN CONDIMENTS.
We prepare Cashmere, Lucknow and Colonel Skinner's Chutnies, Curry Powder, Balchow, Tapp's Sauce, &c.

BUMMALOES OR BOMBAY DUCKS.
We prepare these, ready for cooking, in large quantities and put them up in tins. They will keep for any length of time, and no curry is complete without them. Very suitable for presents to Indian friends at home. Price Re. 1 per tin.

SIZING COMPOSITION.
We supply many Mills with. Price Rs. 14 per cwt.

BOILER COMPOSITION.
For preventing the incrustation of Boiler. Rs. 28 per cwt.

MANURES.
Superphosphate and Universal Manures. Price Rs. 10 and Rs. 6 per cwt.

CUTLER, PALMER & CO.

GRIFFITHS' PATENT WHITE
OR
OXY-SULPHIDE OF ZINC PAINT.
MANUFACTURED BY
GRIFFITHS, FLETCHER, & BERDOE,
SEEL STREET, LIVERPOOL,

Covers 100 per cent. more than Oxide Zinc.
Covers 25 per cent. more than White Lead.
It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."

THE Manufacture of "GRIFFITHS' PATENT WHITE," formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c. ; was brought before the International Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson ; and in the same month before the British Association, in Dublin ; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett ; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz. : The only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application ; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS EXTRA PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the *good* properties of both the above without any of their drawbacks, viz., it has far more body than Lead, has double that of Oxide Zinc, has the same whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather.

PROFESSOR PHIPSON says : "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool. The following are a few who have reported on this new pigment :—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist to Royal Academy, &c.

JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c.

PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.

DR. PHIPSON, Fellow of Chemical Societies of London, Paris, and Antwerp ; and of Royal Society of Natural Sciences, Brussels.

H. C. BARTLETT, Ph. D., F.C.S.

T. A. BRITTON, Surveyor to Metropolitan Board of Works.

C. H. TOZER, Decorator, and other Practical Men in the trade.
